

# Diversity in Practice: Working with Lesbian, Gay, Bisexual & Trans (LGBT+) Communities

## Course Overview

This course is provided by the Diversity Trust. It is aimed at those working in the public, social purpose, voluntary and community sectors and is relevant to both practitioners and managers.

The overall aim of the course is to help organisations improve the services they deliver to Lesbian, Gay, Bisexual and Transgender people.

## The course includes:

- an overview of key legislation relevant to sexual orientation and gender identity
- research on the experiences of the LGBT+ community and barriers faced in accessing services
- best practice guidelines to help your organisation improve service delivery to LGBT+ people
- practical ideas on other issues including how to support LGBT+ staff, and when and how to monitor sexual orientation and gender identity

The course is aimed at people who develop and implement strategy: commissioners, service managers and operational staff. It will be useful to those working in the health sector (particularly mental health), children and young people's services, and to a wide range of voluntary and community sector settings.
